

Ja'lah Roundtree

About Me

Skilled at writing clean web and mobile responsive code. I create web and mobile layout wireframes and designs. I'm looking for a full-time opportunity that will help me progress into a Front-End Web Developer.

Education

University of Maryland Global Campus

Bachelor of Science

Major: Digital Media and Web Technology (December 2022)

Relevant Coursework

User Experience and Interface Design

- Conducted heuristic evaluations of commercial websites
- Used Figma to create and design wireframes and prototypes

Portfolio

Projects

Portfolio

- Used HTML, CSS, and Sass to create a responsive portfolio website to display my projects

Responsive E-Commerce Recipe Landing Page "Drinkies"

- Designed using Figma, written using HTML and Sass in VS Code

"Move The Ball" Interactive Website

- Used VS Code, Bootstrap, HTML, CSS, and JavaScript to create an interactive website that allows users to move a ball. JavaScript is used to manipulate CSS components to move and customize the "ball". Used bootstrap 5 to create the framework of the website.

HTML Email Template "Sandwichies"

- Used VS Code, HTML, and inline CSS to create an E-Commerce HTML Email Template
